

Cabin Crew Academy

Initial Cabin Crew Course

The 7 day full Initial Cabin Crew course (CAA Accredited), will allow participants to complete all the necessary subjects required to be a fully initially trained Cabin Crew member. The course meets all requirements of the UK CAA and EU-OPS for the safety training of cabin crew (in accordance with OPS 1.1005). Topics covered include;

- History of Flight
- Theory of Flight
- Meteorology
- Wet Drills
- Survival
- Crew Resource Management
- Fire and Smoke
- Security
- Dangerous Goods
- First Aid
- Standard Operating and Standard Emergency Procedures.

Advanced Cabin Crew Course

This course has been designed to cover all aspects of conversion training from commercial to corporate cabin crew. The course covers all aspects and differences for private flying including catering, cleaning of the aircraft, aspects of client expectations, galley management in a confined space, managing the aircraft stores and a great deal more.
